RIVER PLACERS FIND RICH ORE

The Poorman & Hastings mine property on the Middle Yuba is under lease to the River Placers, Ltd.

This property is situated on the river bed and runs for three miles to Footes Crossing bridge. It is just below Alleghany on the Middle Yu- river, and it is well known that A ghany has rich ore values. The gravel in this river is from these rich veins of gold ore.

About 33 years ago Mr. Edward Poorman's father worked this property, but each winter high water drove them out. One season at the end of a shift the crew of men filled powder boxes with gold and gravel, from the bottom of the 50 shaft and brought up more gold than gravel. It amounted to $2200. Again water drove them out.

The new company is on Horseshoe Bar and prepared to work winter and summer. The river channel is cut down more now with gravel bars here and there, and the water is the lowest in years, at this time. They have sunk a 50 foot shaft and drifted up on the side wall of the present stream, hitting the old channel.

A telegram to Mr. Poorman at his home in San Jacinto called him to the mine to view the new discovery. They have struck the old channel again and gravel is panning $1. to the pan.

0

REDUCTION PLANT FOR FORD MINE PROPERTY

San Andreas, Calif. July 24,—Recent metallurgical tests having demonstrated that a high recovery of the metal content of the ores of the Ford mine, near this town, can be made by amalgamation and oil flotation, the management, it is learned, is proceeding with plans for the early erection of a reduction plant of 200 tons daily capacity embodying such methods on the property. The millsite selected is on a hillside, immediately beneath the 34-foot headframe over the 750-foot main incline working shaft and will permit of the handling of the product of the mine in its reduction by gravity at low cost, it is asserted. The site is now being cleared of trees preliminary to grading operations. The mill equipment will include crushers, ball mills, amalgamating plates and oil flotation units

Supt. Joseph E. King reports that underground development work is steadily increasing the available tonnage of ore. On the 300-foot level, he suth drift on the East vein is exposing hree feet of ore assaying $10 a ton in gold, it is stated. This is a new find on the level named but is known to be the downward continuation of an orebody first opened up on the 100-foot level and followed for 70 feet, with the face still in ore In fact the distance named on the 100-foot level the orebody shows an average of two feet and assays have varied from $2 to $2,000, a ton. Taken as a whole, it constitutes an excellent grade of milling rock, it is said. In cleaning out an old south drift on the main ledge on the 100-foot level miners are revealing a shoot of ore varying in width from three to five feet of good grade. Much of the ore extracted from it thus for has shown free gold to the naked eye, it is stated.

0

OROVILLE HAS GREAT PLANS FOR 1932 MINING CELEBRATION

The second annaul State Mining Celebration which was awarded to the Butte Chapter, Mining Association, by Governor James Rolph, Jr., forthe best represenation made in the mining parade at Mariposa on June 20th, 1931, will be held in Oroville, California, during the month of May 1932, the exact date of which will be decided by the Governor in the near future.

This celebration will be conducted under the auspices of the Butte Chapter, mining Association of California which is one of the most progressive chapters in the State. The Oroville Chamber of Commerce and other civic organizations of Butte county will play a big part in cooperating with the Butte Chapter in making the celebration a great success.

TOLEDO AND FREE LANCE MINES SHOW ACTIVITY

Jamestown, Calif. July 24,—Wickham and Walker Havens of Oakland have acquired from Mrs. Marion R. Clement of Piedmont, Calif. under lease and bond the Toledo mine, embracing four claims or about 80 acres, four miles northwest of Jamestown. The property has not been actively operated for about a quarter of a century, prior to which period, according to reports, it was a notable producer of rich quartz ore and pocket gold from the various ledges coursing through it.

After being idle for about 30 years, operations are again in progress at the Free Lance mine, located on the Tuolumne River, 10 miles east of Jamestown, and owned by V. A. Solari of Jamestown and J. P. Mangante of Sonora. A crosscut tunnel, extended in the early days and said to be more than 400 feet in length, is being cleaned out and retimbered preliminary to the inauguration of a program of new development work.

0

ACTIVITY IS SHOWN IN RANDSBURG DISTRICT

San Francisco, July 24,— New mining activities and pending developments in the Randsburg district of California are drawing the attention of local mining interests to that region which has contributed such famous producers as the Kelly-Rand and Yellow Aster to the mining industry of the West.

The Operator Consolidated Mining Company, of which George Browne is president, is developing the Bender mine, the latest project to be launched at Randsburg. The company's shaft has reached a depth of 200 feet where the vein, which was 18 inches wide on the surface, has widened to six feet, according to a report just received here from Superintendent Gustave Bender.

A station has been cut and a drift started on the vein to tap the downward extension of the ore shoot that produced rich ore on the 100 foot level. The drift will not stop there but continue on about 100 feet to the intersection of the Bender vein and the Yellow Aster vein which enters the Operator Company's ground from the adjacent property, according to Bender

Reports received here also stated that work has been resumed in the Kelly-Rand mine following an examination by engineers and that a three week's mill test of Yellow Aster ores will be conducted to determine whether or not the big Yellow Aster stamp mill will be placed on capacity production

0

PROGRESS BEING MADE IN SUTTER CREEK MINES

Sutter Creek ,Calif, July 24— A 30-ton lot of galena sulphide ore, assaying $90 a ton in gold, was recently made, it is stated, to a San Francisco Bay smelter by Jack Howell from his prpoerty five miles east of Pioneer Station. The ore was sorted from the product obtained in the extension of a drift tunnel. The vein varies in width from six inches to three feet . and, as a whole, consttutes a good grade of milling ore. The higher grade ore is usually extracted from the "squeezers" or narrow widths of the vein .The property is equipped with a three-stamp mill,

In developing the Praether property on the Mokelumne River, seven miles east of Pioneer Station, Stanley Barnhart and E. E. Cole are opening up a six to 12-inch orebody which yields $30 to $40 a ton in gold, it is stated. They are extending drifts north and south on the showing from a 100-foot cross-cut tunnel on the property.

.J M. McDonald of West Point is making excellent headway in the renewed developmtnt of the Columbus property, three miles southwest of Pioneer Station, which is credited with a past production of $50,000. His force of miners is advancing a drift and sinking a winze on an orebody showing a width of 12 feet and yielding good milling values, with occasional higher value rick.

WHISTLE WILL START OPERATIONS AT ST. LOUIS MONDAY MORNING

When the whistle blows Monday on the St. Louis Mill of the Federal Consolidated Mines, Ltd., on Deer Creek in Willow Valley, three miles East of Nevada City, it will signalize the second major mining operation undertaken and financed by J. M. Hoff and his associates in the present revival of old workings. The structure situated on the North side of the Creek and designed as the last word in modern mill construction, will handle ore from the Constitution, Cyane, the St. Louis, Jackson, and Bellefontaine Mines, all of which are grouped in the immediate area of the St. Louis claims.

The final tuning up of the Mill, under the Mill Superintendent, R. N. Diggles, has been accomplished, and full power will be turned on Monday. The Krout cells have been carefully inspected by engineers from the Krout organization, and the last details in hook-up are underway.

The Company is now installing a road and nigh line bridge into the crusher so that ore from the Constitution Mine can be hauled down and milled at the St. Louis. Rock from the Constitution will come from the main level at the bottom of the shaft, which has been extended 250 feet East during the last thirty days. The ledge from two to six feet wide and he assays, the entire length, from five dollars to $70 a ton. Some 700 feet of 4 inch standard pipe line from the Allison Ranch secured through Mr. Fred Cassidy of the Alpha Hardware Co., and the balance of 3 inch pipe has been run into the face for a distance of 1700 feet. The St. Louis Mine which was filled by the over-flow of the Snow Mt. Ditch two years ago, is being mucked out, and there has been exposed a good two feet of ore which assures more rock for the mill.

The surface workings of the several Hoff properties are rapidly assuming shape, last week crews being sent to the Federal Loan and the Le Compton Mines which are further up the Creek. These units are being rapidly rehabilitated with new timbers and headframes.

LEASE IS GIVEN ON MOUNTAIN LILY MINE

Sonora, Calif, July 24— Randall Northrop and associates have sold to G A Schmidt, Michael Rossiter and A J McCormick of Los Angeles their three-year lease and bond on the Mountain Lily mine, five miles north of Columbia, owned by the Mountain Lily Mining Company The new operators have taken possession of the property and put a force of miners to work unwatering a 140-foot winze sunk atthe 450-feet point in a 750-foot drift tunnel on a vein varying in width from one to three and a half feet in the distance explored

The tunnel was run in the early days of California mining and from stopes above it three shoots, having an average length of 50 feet, yielded heavily in gold ore according to reports. In the bottom of the winze in which work has recently been prosecuted there is better than two feet of ore averaging $40 a ton it is stated. For the immediate future operations are to be confined to additional sinking in the winze on the showing described and the continuation of the drift tunnel in search of new orebodies. The property is equipped with a five-stamp mill and concentrating unit as well as all necessary mining machinery.

Sinking of a two-compartment vertical shaft is being prosecuted by miners employed by C. C. Hale and John Anderson of Turlock Calif on the Pruett-Rowell tract of placer gravel land, embracing 150 acres, one and a half miles south of Confidence and a short distance from the famous Confindence mine, a prodigous lode gold producer for many years. The shaft has attained a depth of 30 feet and will be continued to bedrock, which should be reached 180 feet below the surface, as indicated by recently prospected drilling operations.

GOVERNOR TO VISIT HERE

A delegation representing the Nevada County Mining Association headed by Errol MacBoyle, president of the Mining Association of California visited Governor Rolph at his office in Sacramento last Friday to discuss with him some of the problems confronting the mining industry today. However the governor was due at a luncheon and the delegation were fortunate to be graned ten minutes of his valuable time.

The time was entirely inadequate to cover the important problems so the governor invited the committee to meet with him at some later date.

The Governor expressed his desire to visit Nevada County and was extended an invitation to be the guest of Nevada County Chapter, Mining Association of California An entertainment is being planned for him.

0

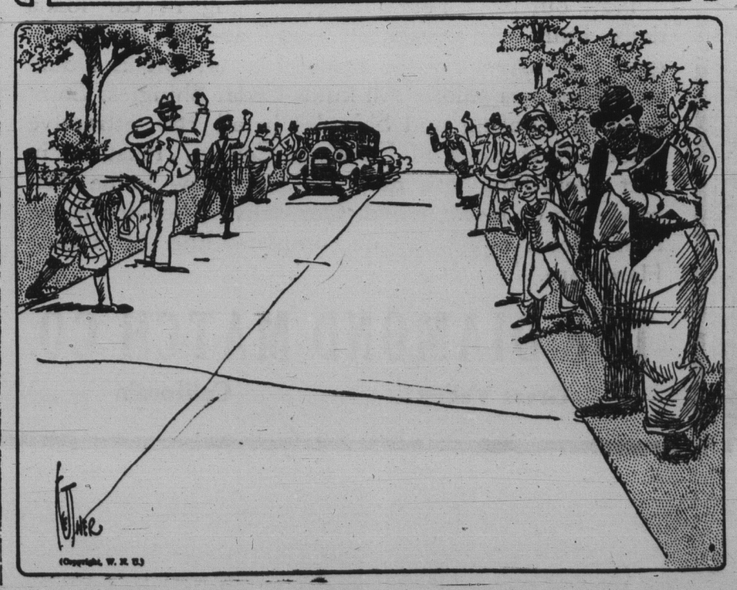
NEWTOWN MINE CUT IN WITH ELECTRICITY

It took a P. G. & E. construction crew of 25 men less than a week to tie in a 60 KV substation connection on the KV Colgate power line and run poles and line a distance of about a mile. A 125 horsepower connection was established. Fred Foote of the Foote Electrical Company of Grass Valley is wiring the mine workings.

This property is located in the South Deer Creek section where a number of good prospective mines are known to exist. The opening of this property should be an incentive to others in the district. This is one of the most important connections made by the P. G. & E. in rural sections and particularly in the ore belt, in some time.

As soon as the new gallows frame and other surface improvements are complete extensive operations are planned to start at once.

Road Pests



MINING JOURNAL TO BE READY AUGUST FIRST

The Nuget is only carrying four pages this week owning to the pressure of getting out the first edition of The California Mining Journal which will be ready for the press next Tuesday and be in the mails August 1st.

Every Nugget subscriber is entitled to a sample copy free so send in for yours.

A special subscription price of $1 is made to subscribers of the Nugget and to members of the Mining Association of California. This special offer only holds good until August 15th. After that the regular subscription price will be $2 per year.

The publisher is receiving encouragement from all parts of the state. It is gratifying to note how many of The Nugget subscribers have sent or brought in their $1 for the new publication on the merits of The Nugget.

The Nugget office is working under high pressure preparing for the issue and another printer has been added to the force.

The list of contributers to the first issue includes Honorable James Rolph Jr., Governor; Congressman Harry L. Englebright, Assemblyman J. L. Seawell, Errol MacBoyle, Fred Miller, A. M. Hoge, Harry Tibbey and many others.

Nevada and Sierra Counties will be featured in the first issue and the first issue will contain a corrected index of the mining properties in the two counties.

0

MRS HELEN MCCULLOUGH PASSES TO HER REWARD

Mrs. Helen McCullough passed away at the home of her sister in Mill Valley Friday night. Several weeks ago she went to Sacramento where she underwent a major operation for an ailment of long standing. At first it was thot she would be benefitted, but complications set in and death came to relieve her suffering.

She was born in Alleghany and spent her early life there. She married Joseph McCullough, one of the best known residents of the Ridge, and came to live at San Juan. Six children, three boys and three girls, were born to this union. They are Robert, William and Walter, Misses Levina and Bessie McCullough and Mrs. Michael Phelan.

Mrs. McCullough was a devoted wife and mother and in the life of the community in which she lived will be sadly missed for her active part in affairs that benefitted them.

0

CHEROKEE DEVELOPMENT CO OPEN DEMAREST MINE

Angels Camp, Calif. July 24— The Cherokee Development Company, financed by Washington capital, is preparing to resume the operation of the Demarest mine, six and a half miles north of this town, after a practical shutdown since last November. Under the supervision of John F Benson of Seattel, general manager, workmen are at present employed in repainting the mine, mill and other bulidings on the property and reconditioning all mining and milling equpment. Actual underground work will be under way again in the early future, according to Mr. Benson, who also announces that within the next 90 days the stamps in the mill will be increased from ten to 20 and the capacity of the plant stepped up from 50 to 100 tons of ore daily.

Following dewatering of the 700-foot incline shaft by bailng operations, an electric pump of 300 gallons per minute capacity already on the ground, will be installed at he 600-foot level station and stoping of the Demarest vein above the south drift on that level to the 400-foot inaugurated at intervals along a stretch of 200 feet. The orebody has an average width of eight feet and assays $10 to $15 a ton it is stated, with the face of the drift still in ore. Additional sinking is also to be done in a winze, now down 35 feet, below the 600-foot level on the hanging wall vein. In the winze bottom, there is six feet of ore assaying from $12.50 to $15., a ton in gold, it is asserted.

FORMER EDITOR PASSED AWAY

Leonard Sayles Calkins, former Nevada City newspaperman passed away in Sacramento.

He was born in Nevada City September 3, 1853 and claimed this city as his own and even after he went to Kansas with his parents he returned in 1877 to Nevada City to go into the newspaper business which he had learned while in the East.

For many years he was associated with the Nevada City Transcript first as printer and later owning a half interest.

He was active in all civic and political endeavors of his city and county. He served as postmaster under President Harrison.

Fraternally he was a charter member of Hydraulic Parlor No. 56 N. S. G. W. and was a member of Nevada City Lodge No. 518 B. P. O Elks, and Milo Lodge Knights of Pythias. He was a Grand Chancellor Knights of Pythias.

Mr. Calkins leaves besides a host of friends in all parts of the state his widow, Hattie Dickerman Calkins and two daughters, Miss Leonore Calkins and Mrs. Olive Blair in Sacramento.

Funeral services will be held in Sacramento Saturday morning at 10 o'clock.

0

PIONEER ATTEMPTS TO MINE LAVA CAP CHANNELS

In 1852 A. B. Clark and William Breese while working the Butte Creek Placer mines, discovered that the greatest pay ceased when arriving at one of the high grade tributaries of Butte Creek.

Their investigations of the small stream showed gold in quantities on the exposed bed rock formations in the bed of said creek.

Further investigations proved the source of this gold was from under the lava capped hill, from which a spring of water flowed, with particles of gold in evidence at same position.

The depth of the lava at this point was 30 feet, and the propspectors concluded to sink a shaft through the Lava Formation.

The absence of powder, and other appliances for this work prompted the investigators to resort to the crude method of heating the lava with wood conveyed to the seat of operations, and pouring water upon the heated formation, checking the same, and making possible the removal of the lava by windlass.

The bottom ofthe lava was reached and gold was discovered in the gravels exposed by this development, but the water would not permit them to proceed owing to the absence of pumps or other appliances they abandoned this effort, and concluding the water was supplied from crevices in the bed rock, and another shaft would miss this water source.

One partner supplied the provisions, the other did the work on shaft No. 2, resulting in the channel being reached, and the water likewise preventing mining of the gravel bed.

They abandoned the project for some months, went to work at other pursuits to acquire capital for a further assault upon his gravel bed.

The next method of procedure was the installation of a bed rock cut 10 feet deep below the bed of exposed channel, and directly into the channel. This development drained a small portion of this gravel, and allowed the determined prospectors $1700.00 of a reward for their labors.

The channel pitched away from their cut in the bedrock, and prevented further developments at that time.

Future developments by an organized mining company proved this deposit to be the famous Persh Becker Channel of Butte County, California situated on the Magalia Ridge, and famed for the many millions of dollars of production in gold values.

EDITOR WATCHES POLITICS

The following appeared in Senator Herbert Statlers political column in the Santa Rosa Press Democrat:

"Elsie Willoughby, who is now publishing the "Nugget" in Nevada City, the paper started by her late husband, Arthur Willoughby, is taking much interest in politics. She does not want to become the political boss of the mining county, but like every good publisher and newspaper man, is sincerely backing the progress and development of her county. She wants a hand in the government. Consequently Elsie is watching every movement of the administration with concern. They are still interested in knowing who will be named director of the department ofnatural resources."

Just to show the Senator is right the following is taken from Wednesday's issue of the Sacramento Bee:

"Requesting fine tax adjustments and a reduction in the employees' compensation insurance rates affecting mines, a delegation representing mine owners conferred with Rolland A Vandegrift, state director of finance.

Vandegrift said the only hope for reduction inthe compensation insurance charges lies in reducing the accident hazards in mining operations.

With this end in view Vandegrift informed the delegation that an additional mine safety inspector has been added to the pay roll of the industrial accident commission.

The delegation was composed of Errol MacBoyle of Grass Valley, president of the state mining association; George Duffy of Forest Hill Mrs. A. A. Willoughby of Nevada City, and Assemblyman J. L. Seawell of Roseville."

RICHARD A. NOELL PASSES AWAY AT YUBA CITY

Richard A. Noell, former resident of Nevada City, passed Saturday at one o'clock in Yuba City of typhoid fever. He had been ill only a short time and death came as a great shock to relatives and friends.

He was born in the Willow Valley District about 34 years ago. Mr. Noell attended the schools of this district later entering the candy making business with his parents in Nevada City and Grass Valley. He later took the Nevada City Soda Works operating it for some time.

Less than a year ago he moved to Yuba City and entered the soda manufacturing business. He had a genial personality and was ambitious to succeed. This ambition seemed about to be consummated when he was taken.

He leaves to mourn his passing his wife, Anna Noell, his father and other relatives.

Interment was made in the family plot in Pine Grove cemetery Monday afternoon from the W. R. Jefford & Son Funeral Home. Rev. E. O. Chapel of the Congregational church conducted the services. Pallbearers were: Elzear Foley, J. J. Jackson, Vincent Foley, J. D. Shewart, Ervin Long and Allen Gracey. There were many beautiful floral offerings attesting to the high esteem in which he was held.

400 DIAMONS TAKEN FROM CHEROKEE MINE

Peter Felthausen, a prospector, found a half carat diamond in the famous old Cherokee mine in Butte County.

Over 400 stones have been taken from this mine. These diamonds have ranged from as large as the end of a man's thumb to as small as a grain of rice. They are not the diamonds used in jewelry but are used in cutting of glass.

A number of rubies are also found in the placer mines of Sierra and Nevada Counties.

—0—

MRS. HENRY SUES OVER DEATH OF HUSBAND IN GLENN MINE

Mrs. Marie Henry has filed suit at Auburn against the Capital Glenn Mining Company and holders of capital stock in the organization for $50,000 because of the death of her husband, George B. Henry, in the fire at the Glenn Mine, July 14, 1930.

In the complaint Mrs. Henry claims that proper outlets inthe fire were not provided by the owners of the mine, making it imposssible for the trapped victims to escape. Her husband was trapped in the mine.

It is also alleged in the complaint that the company failed to carry compensation insurance for the proection of its employees.

The fire in which Henry lost his life took place in a mine in Placer County, 35 miles beyond Forest Hill It was owned principally by Sacramento capital but recently was sold to a group of San Francisco men.

INTEREST IN MINES IN FRENCH CORRAL DISTRICT

FRENCH CORRAL, July 24—(Special to The Nugget)—Another week of scorchers! With hot weather , forest fires and Pine Grove reservoir almost drained we feel that we are drying up, burning up, and quite used up. The shortage of water is the one great worry. They have a plan however, by which French Corral can be supplied with wather for some time. They are getting ready to put in a pump and take water out of the old Bedrock mine where the large excavation near the roadside, above the Clerkin (Skeahan) place, has been filled with water for the past few years.

It looks as if something will soon be doing in the mining line in this part of the country. Many mining men have visited our town during the past week. We expect this place to get in line with Grass Valley as a quartz center.

Work is steadily going on at the Boss mine in Sweetland.

We had another fire scare last Tuesday, when a blaze was started in the old Taber place and shortly made its way on toward San Juan. The early arrival of assistance saved the historic old town, from a fate like her sister town of Birchville, experienced the week before. Mr. Fogarty was wise and summoned help from all quarters as soon as danger was imminent. However, the fire demon got in its work of destruction and the beautiful black oak woods along the highway are partially destroyed.

John Shevis, who has been spending the past two weeks here, took a trip further up in the mountains last Tuesday. He will return to this place later.

In our last "Items" we omitted mention of relic hunters from Pasadena ,who visited our town during this week. Mr. W H. Lyons and Geo. Zenther. Mr. Lyons was formerly Mayor of Fresno. They found many things here to interest them.

Clyde Browning visited his home here Saturday and Sunday.

Mr. and Mrs. W. E. Moulton and Mrs. Moulton's sister, Mrs. J McCarthy of Los Angeles, who has spent the past two weeks here, went to De Sabla Saturday, where Mrs. McCarthy will visit with her sister, Mrs. J. Fogarty. From Marysville they were accompanied by Mrs. Moulton's daughter, Frances. Mr. and Mrs. Moulton and Miss Frances returend Sunday night.

Mr. and Mrs. Lloyd Dudley of Nevada City visited the family of A Browning this week end.

Mrs. J. W. Culver returned to her home Saturday evening, after a visit with her son, Benton Wilcoxson, of Drum during the week. She reports a delightful time having a trip to Reno and Lakes Tahoe and Donner, while away.

J. Swazey is spending the week with friends in French Corral.

Mr. Body of Los Angeles had business here Sunday and Monday.

The funeral of the late Mrs. Wm. Hustler, who passed away at the Nevada Cinty Sanitarium last Tuesday, was attended by many friends from this place. Mrs. Hustler had spent her entire life on the San Juan Ridge where she was well known and beloved by all Services were held in St. Patrick's church at Cherokee, with interment in the Catholic cemetery in North San Juan Deepest sympathy is extended to the members of her family—especially her aged husband.

Another beloved one was laid to rest today in Mill Valley. In the passing of Mrs. J. McCullough, San Juan loses one of its best beloved. A devoted wife and mother ,who despite the care of a large family, was ever ready to assist in any good work .She will be sadly missed not only by her family, but by the entire community Deepest sympathy is extended to those bereft.

CLAUDE FERGUSON ACCEPTS MANAGEMENT CANADIAN MINE

The Granada-Rouen Mining Co. of Canada near Toronto offered a position as general manager to Claude Ferguson. He visited the property and accepted the position, going to work at once. The property employs several hundred men.

Mr. Ferguson made a name for himself as engineer of the Empire mine This reputation in mining circles led to the new position.

Mrs Ferguson and sons will not leave Grass Valley until in the spring on account of school advantages.

WILSON SIGNS AS COACH AT GRASS VALLEY HIGH SCHOOL

William Wilson, former teacher and member of the coaching staff of Oroville Union High School, will be physical education teacher and coach at Grass Valley High School next school year. Employment of Wilson by trustees of the school was announced today.

Wilson may also conduct one class at the school, although this has not been determined. Classes will open August 24th.

Wilson was connected with Oroville Union High School for three years. He coached baseball and "B" football, and also was band instructor, besides teaching history.

Our best wishes go with Billie Wilson to his new coaching job at Grass Valley. Wilson has coached for several years at Oroville high school and is well liked by students and parents. All luck to you, Billie. —Mercury Register, Oroville.

4-348b NOTICE OF PUBLICATION

DEPARTMENT OF THE INTERIOR GENERAL LAND OFFICE at Sacramento, Calif.

MACHINERY INSTALLED AT FELECIANA MINE

Equipment has now been installed on the 375-foot level in the Feleciana mine in Mariposa County to sink a winze to a lower level, it was reported by officials of the Gold Ledge Mining Company. The latter company owns full control of the property. Development work will be resumed at once on the high grade ore shoot encountered on the 375 foot level.

It is estimated ore milled during June which was taken out during development work, will about defray expenses for the month. Engineers hope to have the mill operating on a full-time schedule between August 15 and September 1st.

Engineers for the company are now arranging for some small changes in milling practice which will make possible more complete recovery of gold values from the ore particularly from the heavy sulphide ore encuntered above the 375-foot level.

An afternoon off costs but 4¢

when you cook with electricity!

HOW DELIGHTFUL to have an afternoon off whenever you want it!

Just let the electric range do your cooking automatically.

You simply prepare the dinner, place it in the oven, set the time and temperature controls and you're free for the entire afternoon. When you return home at six o'clock the meal is deliciously cooked—hot—and ready to serve.

On the average, cooking with electricity costs but 1c a meal per person. As for speed, the oven heats up to 400 degrees in 9 to 11 minutes! Platform cooking elements today are faster—as fast as you'd want them. Then too, you'll be delighted with the cleanliness of electric cooking.

A few dollars down will place the range of your choice in your kitchen. See the new electric ranges at our office today.

Local dealers also sell electric ranges.

LEGAL NOTICE
No. 5912
NOTICE OF SHERIFF'S SALE OF REAL ESTATE, UNDER EXECUTION

IN THE.. SUPERIOR.. COURT OF THE STATE OF CALIFORNIA IN AND FOR THE COUNTY OF NEVADA.

JAMES BRADY, Plaintiff
vs.
M. IVAN DOW AND E. L. DOW, Jr., Defendants.

By virtu of an Execution issued out of the Superior Court of the State of California, in and for the County of Nevada, wherein James Brady is Plaintiff and M. Ivan Dow and E. L. Dow Jr., are Defendants. Upon a Judgment rendered on the 6th day of July, 1931, for the sum of Four Hundred Thirty-eight ($438.00), with interest thereon at the rate of 7 per cent per annum, till paid from the date of said Judgment, together with Twelve ($12.00) costs and disbursements at the date of said Judgment, and Clerks accruing costs of One Dollar ($1.00).

I have this day levied upon all right, title, estate and interest of M. Ivan Dow and E. L. Dow Jr., defendants, as aforesaid, in and to the following described real property to wit;

All those certain consolidated quartz and placer mining claims, being portions of Section Seventeen (17) and Twenty (20) Township Sixteen (16) North, Range (9) East, M. D. M., bounded and particularly described as follows; Commencing at the section corner common to Sections 16, 17, 20 and 21 of said Township, thence running South 88½° West following section line between said Sections 17 and 20, 16.81 chains thence North 55½° West 28.80 chains to post M. H. R. 12; thence South 64½° West 8.20 chains to post M. H. R. 14; thence North 74° West 4.86 chains to post M.H. R. 15; thence North 56½° West 4.49 chains to post M. H. R. 16; thence North 48° West 6.00 chains to post M. H. R. 17; thence South 49° 4.90 chains to post M. H. R. 1; thence south 11½° East 3 chains to postM. H. R. 2; thence South 13° West 8.16 chains to Post M. H. R. 3; thence South 9¾° W. 4.20 chains more or less to point 25 feet North of the croppings of Nolan's Nevada Ledge; thence North 70¾° East at 9.60 chains Post M. H. R. and B. C. 3, 12.02 chains to point on East side line of Nevada Q. M., South 23° East 0.73 chains to East Lode Post of Nevada Quartz M; thence South 15° 38' East 2.24 chain to North side line of Big Blue Q. M., thence South 68° West 5.82 chains to N. W. corner of Big Blue Q. M.; thence South 22° East 0.76 chains to S. W. Corner of Big Blue Q. M. thence North 68° East 5.76 chains to East end line of Nevada Q. M., thence South 15° 38' E. 1.86 chains to Section line between Sections 17 and 20; thence North 88½° 5.62 chains to the NW. Corner of the Nute Placer Mine; thence South 2° West 12.75 chains, thence South 45° 27' East 10.04 chains to post M. H. R. 6; thence North 88½° E 40.86 chains more or less to post M. H. R. 9; the line between sections twenty and twenty-one and thence North 0° 45' W. 20.45 chains more or less to the place of beginning. Also all those certain Placer and Quartz Mining Claims commonly known as the Sharp Consolidated Mining Claims and consisting of both Quartz and Gravel and known as the Greenman, Butterfly, Ben Harrison, Glencoe, Hickson, Enterprise. Little Kellog, and Red Rose Claims, and for a more particular description of the above named cleaims reference is hereby made to the Nevada County Recards in Book and pages as follows:

Greenman, Book 26, page 195, Kellog, Book 26, page 196, Rose Claims, Book 126, page 195, Enterprise, Book 24, page 68, Hickson, Book 24, page 69; and Ben Harrison, Book 19, page 161; meaning and intending to convey all the right, title and interest that the said Sharp, his heirs and assigns have or may have to the above described property, together with all personal property and improvement located thereon.

For further description of the above mentioned placer and quartz consolidated claims see Book Deeds 131, page 309, Nevada County Records, and including all water rights, ditches, machinery tools, timbers set upon or conneoted with or appurtenant to said premises or any part thereof; it is intended hereby to include all patented or unpatented quartz and Placer Mining Claims owned or claimed by the Grantor in Nevada Township, Nevada County, California.

Including all buildings and improvements tereon, or that may be erected thereon; together with all and singular the tenements, hereditaments and appurtenances, water and water rights, pipes, flumes and ditches thereunto belonging or in anywise appertaining and the reversion and reversions, remainder and remainders, rents, issues and profits thereof.

Together with all and singular the tenements, hereditaments and appurtenances thereunto belonging, or in anywise appertaining, and the reversion and reversions ,remainder and remainders, rents, issues and profits thereof.

Public Notice is hereby given that I will on Friday, the 31 day of July, 1931, at 10 o'clock A. M. of said day in front of the Courthouse door in Nevada City, County of Nevada, State of California, sell at Public Auction for cash, lawful money of the United States, all the right, title claim and interest of the above named defendants, of, in and to the above described property or so much thereof as may be necessary to satisfy said Judgment and costs, etc., to the highest and best bidder for cash lawful money of the United States.

Dated: July 10th, 1931.
GEORGE R. CARTER, Sheriff of Nevada County.
E. H. Armstrong, Attorney for Plaintiff.
First Publication July 10, 1931.

SUMMONS
NO. 5928

In the Superior Court of the State of California in and for the County of Nevada.

ANNA LUTHER, Plaintiff,
v.
JOHN JOHNSON; ELIZABETH E. TARR; also, all other persons unknown claiming any right, title, estate, lien or interest in the real property described in the complaint adverse to plaintiff's ownership ,or any cloud upon plaintiff's title thereto, Defendants.

Action to determine adverse claims to and clouds upon title to real property, brought in the Superior Court of the State of California in and for the County of Nevada, and the complaint filed in the office of the Clerk of said County of Nevada.

NILON, HENNESSY & KELLY, Attorneys for Plaintiff, Grass Valley, California.

THE PEOPLE OF THE STATE OF CALIFORNIA SEND GREETINGS TO:

JOHN JOHNSTON; ELIZABETH E. TARR; also, all other persons unknown claiming any right, title, estate, lien or interest in the real property described in the complaint adverse to plaintiff's ownership, or any cloud upon plaintiff's title thereto, Defendants.

YOU ARE HEREBY directed to appear, and answer to the complaint in an action entitled as above, brought against you in the Superior Court of the State of California in and for the County of Nevada, within ten days after the service on you of this summons—if served within this County,—or within thirty days if served elsewhere.

And you are hereby notified that unless you appear and answer as above required, the said plaintiff will take judgment for any money or damages demanded in the complaint as arising upon contract, or she will apply to the court for any other relief demanded in the complaint.

The following is a statement of the object of the action:

The object of the action is to determine all and every claim, estate, right, title, lien or interest in the property herein described; that the plaintiff is now, and has been, by herself and her predecessors in interest, the owner of and in the actual, exclusive and adverse possession of the property hereinafter described continuously for the period of more than twenty years immediately preceding the filing of the complaint in this action, claiming to own the same in fee against the whole world, and that plaintiff has, by herself and by her predecessors in interest, paid all taxes of every kind and nature whatever, levied or assessed against said real property during the period of five years continuously immediately preceding the filing of complaint aforesaid; that the claims or claim of said defendants is without right, and that they have not, nor has any, or either of them, any right, title, estate, lien or interest in said real property or any part or portion thereof.

The land and property affected by this action is:

All that certain real property situate in the City of Grass Valley, County of Nevada, State of California, and bounded and particularly described as follows, to wit:

All that portion of Lot 9 in Block 27 of the Town, now City, of Grass Valley, as said lot and block are designated upon the official map of the Town of Grass Valley made by Samuel Bethell in the year 1872, and more particularly described as follows, to wit:

Beginning at the South East Corner of Lot 9, on the North line of Neal Street of said City of Grass Valley, from which the South West corner of Lot 8, the intersection of the East line of Mill Street and the North line of Neal Street, bears N 57° 18' W at the distance of 208.11 feet; thence N 22° 34' E along the line between lots 9 and 10, 66.89 feet to the corner common to lots 9, 10 and 12 of said Block 27; thence N 18° 14' E along the line between lots 9 and 12, 47.14 feet to the North East corner of lot 9 on the West line of lot 12; thence N 67° 59' W along the line between lots 9 and 6A, 38.50 feet; thence S 23° 47' W 105.73 feet to the Northerly line of Neal Street; thence S 57° 18' E along the Northerly line of Neal Street to the place of beginning.

GIVEN under my hand and the seal of the Superior Court of the State of California in and for the County of Nevada, this 15th day of May, A. D., 1931.

R. N. McCORMACK, Clerk.
By ....., Deputy Clerk.

MARIPISA HAS MANY MINE LOCATIONS DURING YEAR

For the fiscal year ending June 30, 1931, there were 324 quartz and placer gold mines located or relocated in Mariposa County, which is evidence of the great interest that is being taken in this industry. In addition to these, there were 176 proofs of labor filed for record on claims upon which the assessment work has been performed

These do not include the hundreds of claims which have been patented or upon which the work was performed but not recorded.

EAGER FOR ISSUE MINING JOURNAL

Dear Mrs. Willoughby:—

I have yours of the 29th ult suggesting your having been honored by the publication of the official magazine for the California Mining Association. I am especially delighted to hear this, because it assures all its readers of an unusually attractive, intersting and accurate publication. I do hope that to the virtues which I know it will contain, you will add the illustrated feature which made your last publication of the Special Issue of the Nevada City Nugget so atractive.....

Yours very sincerely,
Joseph E. Merriam.

Editors Note—Mr. Merriam's excellent article will appear in he first issue of California Mining Journal which will be in the mail August 1st.

HIGH GRADE SOAPSTONE ON SOUTH FORK, MERCED RIVER

An extensive ledge of high-grade soapstone (talc) has been discovered and is being developed by W. H. Rykert on his property near the mouth of South Fork, where this stream enters the main Merced river.

The stone is of finest quality with a noticeable absence of iron or other foreign minerals. It is stated that the quality is such as could be used in the manufacture of high-grade talcum powder, as well as for griddles and parts used in and about cooking stoves, etc.

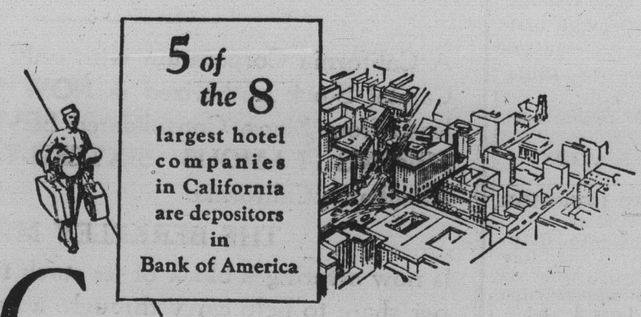
BUILDERS OF CALIFORNIA



5 of the 8 largest hotel companies in California are depositors in Bank of America

a CITY of 200,000 that isn't on the map!

"HOTEL CITY," it might be called. For California's 2,500 hotels could accommodate the combined population of Long Beach and San Jose!

These splendid hotels not only provide modern comfort and convenience for Californians, but also attract and serve thousands of tourists.

And authorities estimate that tourists spend 500 *million dollars* yearly in California.

This profitable trade benefits everyone. Therefore Bank of America, in serving the hotel industry, is privileged to serve the entire state.

This Bank has assisted in financing the construction and operation of many of California's most successful hotels.

And more than 500 hotels, large and small, are Bank of America depositors.

The Bank provides convenient facilities for making daily deposits; supplies hotel cashiers with change and new currency; issues and honors travelers' cheques; reserves accommodations for customers.

Depositors in various branches, traveling about the state, often find it convenient to cash checks at hotels. And daily, hotel officials obtain from Bank of America, hundreds of reports which enable them to extend this courtesy.

MEMBER FEDERAL RESERVE SYSTEM

The same complete, helpful banking service that has won the statewide friendship and patronage of hotel men is available to you—through a nearby Bank of America branch.
